Frontend Developer

Versatile React developer with 3+ years of experience building responsive, accessible interface using React, Storybook, and modern CSS. Skilled in translating Figma designs into scalable components, integrating REST APIs with React Query and Context API, and contributing to backend functionality with Knex.js and Jest. Known for writing clean, reusable code and collaborating effectively in Agile teams.

WORK EXPERIENCE

Jaik Solutions Inc   **July 2022 – Present**
Frontend Developer

- Developed frontend interfaces for enterprise-grade web apps using React, Storybook, and modern CSS architecture, ensuring design accuracy and responsiveness.
- Worked closely with UI/UX designers to translate Figma designs into clean, accessible components, and collaborated with cross-functional teams using Git (Git Flow), Azure DevOps, and Wrike in Agile sprints.
- Built and documented a wide range of reusable React components in Storybook, which standardized visual patterns across teams and reduced new feature development time by 40%.
- Integrated REST APIs using React Query and Context API to reduce redundant calls and improve ticket cart workflows, supporting full CRUD functionality through BFF architecture.
- Created backend main functions using raw SQL and Knex.js to support data handling and business logic for event and ticket-related workflows.
- Wrote unit tests using Jest, including mock functions and database snapshots, to validate backend logic and improve test coverage.
- Used Postman collections to test and validate API endpoints and URL responses, integrating them into the frontend with React Query and error handling.

World Wide Group (WWG)   **March 2022 – June 2022**
Frontend Developer Intern

- Built responsive UI components using React, Storybook, and CSS from Figma and Adobe XD designs.
- Gained hands-on experience with Git and collaborative workflows, contributing to production features in an Agile environment.
- Led to a contract role with Jaik Solutions Inc. supporting the same platform.

EDUCATION

Spokane Community College, AAS in Software Development   **June 2022**
Honors & Certifications: [Merit Page](#)

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React, Context API, Storybook
Styling & UI: CSS3 (Flexbox, Grid, Media Queries), Figma, Responsive Design
API & Data: REST APIs, BFF Architecture, React Query, Knex.js, SQL
Testing: Jest (unit testing, mocking, snapshot), Postman
Tools & DevOps: Git, Azure DevOps, VS Code, Agile (Scrum)
